AGENDA ITEM SUMMARY

Subject: Public Hearing and Possible Action on Land Use Code Amendments to the Sign Standards
(City File CA 12-1)

ACTION REQUESTED

Hold a public hearing and deliberate (with possible action) on proposed amendments to the sign standards.

BRIEFING STATEMENT

On May 29, 2012, the City Council initiated amendments to the land use code (Eugene Code Chapter 9) for signs. The proposed amendments to the sign standards are intended to be limited in scope and would:

1. Eliminate the specific exemptions for conference and convention banners, contractor signs, flags, real estate signs and temporary activity signs. Instead, there would be two general exemptions for (a) on properties used for single-family residences or duplexes, two freestanding signs or banners, or one of each, would be allowed without a permit; and (b) for all other properties, one freestanding sign or banner would be allowed without a permit. Each of those signs could not exceed 12 square feet per sign face.
2. Make some minor wording changes to some of the other exemptions to make it clear that they are not based on the sign's content.
3. Require the City to act on a sign permit application within three weeks of receipt of a complete application.

The proposed amendments, in the form of a draft ordinance, are provided as Attachment A.

BACKGROUND

Eugene's sign standards generally require an applicant to obtain a permit to install a sign on private property. The code contains 24 exemptions from that requirement. Examples are: addresses, hand-held signs, murals, parking lot signs, public signs, and wall signs. Last year, the American Civil Liberties Union (ACLU) notified the City that, in the ACLU's opinion, some of the exemptions are based on the signs' content and therefore unconstitutional. (Under Oregon Supreme Court decisions concerning the Oregon Constitution's protections for free expression, if one has to read the sign to know whether or not it is prohibited or allowed, the regulation is "content-based" and constitutionally invalid.)

Although the city attorney's office disagreed with the ACLU's legal positions, neither the city attorneys nor planning staff were committed to the current code's definitions of the exemptions. Discussions with the ACLU have resulted in a proposal that addresses the ACLU's concerns without significantly impairing the City's ability to protect public safety or prevent the harms associated with unregulated proliferation of signs. The ACLU has agreed that the proposed amendments would not violate the state or federal constitution.

The proposal would eliminate five specific exemptions and replace them with an exemption for one freestanding sign or banner on non-residential (which includes multi-family residential) properties and two freestanding signs or banners (or one of each) on properties used for a single-family dwelling or duplex. The reason for allowing two exempt signs on the single-family/duplex properties and only one on non-residential properties is that a range of signs are already available by permit in commercial and industrial zones. The "exemption" means those signs are exempt primarily from the permit and fee requirements. Most other requirements of the sign standards would apply.

In addition, the ACLU expressed concern that the lack of a deadline for city staff to process a sign permit application could, theoretically, allow the City to discriminate against signs with a disfavored message by delaying action on the application. Although staff was not aware of any examples of such a delay, staff determined that it is able to process an application in three weeks or less, once the application is complete. Codifying that as a requirement assures applicants of even-handed treatment of their applications.

Public Notice and Testimony

Notice of the public hearing was sent to all neighborhood organizations, the City of Springfield, Lane County, as well as community groups and individuals who have requested notice. In addition, notice was also published in the Register Guard. As of the writing of this report, no public testimony was received in response to the public hearing notice. Any testimony received prior to the public hearings will be forwarded to the Planning Commission upon receipt.

Process

The sign standards are part of the City's Land Use Code and are found at EC 9.6600 through EC 9.6680. An amendment to the Land Use Code is a "Type V" application, so the Planning Commission will follow legislative procedures for its review of this proposal (EC 9.7500 through EC 9.7560). After holding the public hearing and deliberating, the Planning Commission will make a recommendation to the City Council to approve, approve with modifications or reject the proposed amendments. After the Planning Commission makes its recommendation, the City Council will hold a separate public hearing and then take action (or take no action) on the proposed code amendments.

Applicable Criteria

Criteria for legislative amendments to the Land Use Code are found in EC 9.8065:

EC 9.8065 Code Amendment Approval Criteria. If the city council elects to act, it may, by ordinance, adopt an amendment to this land use code that:

- (1) Is consistent with applicable statewide planning goals as adopted by the Land Conservation and Development Commission.***
- (2) Is consistent with applicable provisions of the Metro Plan and applicable adopted refinement plans.***

**(3) *In the case of establishment of a special area zone, is consistent with EC 9.3020
Criteria for Establishment of an S Special Area Zone.***

To the limited extent they are relevant to these amendments; the criteria are addressed in the proposed findings in Attachment B.

Recommendation

Staff recommends that, after the public hearing, the Planning Commission deliberate on the proposed amendments and make a recommendation to the City Council. In the event an additional meeting is needed for action on this item, time is set aside at the Planning Commission meeting on June 25, 2012. A public hearing and action before the City Council are anticipated to be in July 2012.

Sign Code Amendments (CA 12-1)

Eugene Code Section 9.8065 requires that the proposed ordinance comply with the following approval criteria (in bold and *italics*):

- (1) *The amendment is consistent with applicable statewide planning goals adopted by the Land Conservation and Development Commission.***

Goal 1 - Citizen Involvement. *To develop a citizen involvement program that insures the opportunity for citizens to be involved in all phases of the planning process.*

The City has acknowledged provisions for citizen involvement which insure the opportunity for citizens to be involved in all phases of the planning process and set out requirements for such involvement. The proposed action does not amend the citizen involvement provisions. The process for adopting these amendments complies with Goal 1 because it is consistent with, and will not change the City's existing and acknowledged citizen involvement provisions.

The Planning Commission public hearing on the amendments was duly noticed. Notice of the public hearing was also published in the Register Guard. The City Council then held a duly noticed public hearing to consider approval, modification, or denial of the amendments. These processes afford ample opportunity for citizen involvement consistent with Goal 1. Therefore, the amendments are consistent with Statewide Planning Goal 1.

Goal 2 - Land Use Planning. *To establish a land use planning process and policy framework as a basis for all decisions and actions related to use of land and to assure an adequate factual basis for such decisions and actions.*

The City's acknowledged land use code specifies the procedures and criteria to be used for decisions and actions related to land use applications. The amendments do not change the planning process, policy framework or information relied on in making decisions and actions related to land use applications. The record also shows that there is an adequate factual base for the amendments. There are no Goal 2 Exceptions required for the amendments. Therefore, the amendments are consistent with Statewide Planning Goal 2.

Goal 3 - Agricultural Lands. *To preserve agricultural lands.*

The amendments do not affect any land designated for agricultural use. Therefore, Statewide Planning Goal 3 does not apply.

Goal 4 - Forest Lands. To conserve forest lands.

The amendments do not affect any land designated for forest use. Therefore, Statewide Planning Goal 4 does not apply.

Goal 5 - Open Spaces, Scenic and Historic Areas, and Natural Resources. To conserve open space and protect natural and scenic resources.

OAR 660-023-0250(3) provides: Local governments are not required to apply Goal 5 in consideration of a PAPA unless the PAPA affects a Goal 5 resource. For purposes of this section, a PAPA would affect a Goal 5 resource only if:

- (a) The PAPA creates or amends a resource list or a portion of an acknowledged plan or land use regulation adopted in order to protect a significant Goal 5 resource or to address specific requirements of Goal 5;
- (b) The PAPA allows new uses that could be conflicting uses with a particular significant Goal 5 resource site on an acknowledged resource list; or
- (c) The PAPA amends an acknowledged UGB and factual information is submitted demonstrating that a resource site, or the impact areas of such a site, is included in the amended UGB area.

The amendments do not create or amend the City's adopted inventory of Goal 5 resources, and does not amend any code provision adopted in order to protect a significant Goal 5 resource or to address specific requirements of Goal 5. The amendments do not allow new uses that could be conflicting uses with a significant Goal 5 resource site and does not amend the acknowledged UGB. Therefore, the amendments are consistent with Statewide Planning Goal 5.

Goal 6 - Air, Water and Land Resource Quality. To maintain and improve the quality of the air, water and land resources of the state.

Goal 6 addresses waste and process discharges from development, and is aimed at protecting air, water and land from impacts from those discharges. The amendments do not affect the City's protections for clean air, water or land resources. Therefore, Statewide Planning Goal 6 does not apply.

Goal 7 - Areas Subject to Natural Disasters and Hazards. To protect life and property from natural disasters and hazards.

Goal 7 requires that local government planning programs include provisions to protect people and property from natural hazards such as floods, landslides, earthquakes and related hazards, tsunamis and wildfires. The Goal prohibits a development in natural hazard areas without appropriate safeguards. The amendments do not alter or affect the City's existing restrictions and approval criteria regarding development in areas subject to natural disasters and hazards. Therefore, Statewide Planning Goal 7 does not apply.

Goal 8 - Recreational Needs. *To satisfy the recreational needs of the citizens of the state and visitors, and where appropriate, to provide for the siting of necessary recreational facilities including destination resorts.*

Goal 8 ensures the provision of recreational facilities to Oregon citizens and is primarily concerned with the provision of those facilities in non-urban areas of the state. The amendments do not alter or affect the City's provisions for recreation areas, facilities or recreational opportunities. Therefore, Statewide Planning Goal 8 does not apply.

Goal 9 - Economic Development. *To provide adequate opportunities throughout the state for a variety of economic activities vital to the health, welfare, and prosperity of Oregon's citizens.*

The Administrative Rule for Statewide Planning Goal 9 (OAR 660, Division 9) requires cities to evaluate the supply and demand of commercial land relative to community economic objectives. The Eugene Commercial Land Study (October 1992) was adopted by the City of Eugene as a refinement of the Metro Plan, and complies with the requirements of Goal 9 and its Administrative Rule. The amendments do not affect the amount of land designated or zoned for commercial use and will have no direct impact on the existing supply of or any existing commercially designated land. Therefore, the amendments are consistent with Goal 9.

Goal 10 - Housing. *To provide for the housing needs of citizens of the state.*

Goal 10 requires that communities plan for and maintain an inventory of buildable residential land for needed housing units. The amendments do not impact the supply or availability of residential lands included in the City's documented supply of "buildable land" that is available for residential development as inventoried in the acknowledged 1999 Residential Lands Study. Therefore, Goal 10 does not apply to the amendments.

Goal 11- Public Facilities and Services. *To plan and develop a timely, orderly and efficient arrangement of public facilities and services to serve as a framework for urban and rural development.*

The amendments do not affect the City's provision of public facilities and services. Therefore, Statewide Planning Goal 11 does not apply.

Goal 12- Transportation. *To provide and encourage a safe, convenient and economic transportation system.*

Goal 12 is implemented through the Transportation Planning Rule (TPR, OAR 660-12). TransPlan provides the regional policy framework through which the TPR is enacted at the local level. The amendments will not significantly affect any transportation facility. The level of development currently permitted through existing code and zoning regulations will remain the same. No change in the functional classification of streets will result from the amendments. In addition, no changes are proposed to the standards that implement the functional classification system. Therefore, the amendments are consistent with Statewide Planning Goal 12.

Goal 13 - Energy Conservation. *To conserve energy.*

The amendments do not affect any of the City's energy conservation measures or programs. Therefore, Statewide Planning Goal 13 does not apply.

Goal 14 - Urbanization. *To provide for an orderly and efficient transition from rural to urban land use.*

The amendments do not affect the City's provisions regarding the transition of land from rural to urban uses. Therefore, Statewide Planning Goal 14 does not apply.

Goal 15 - Willamette River Greenway. *To protect, conserve, enhance and maintain the natural, scenic, historical, agricultural, economic and recreational qualities of lands along the Willamette River as the Willamette River Greenway.*

The amendments do not include any changes that affect the regulation of areas within the adopted Willamette River Greenway boundaries. Therefore, Statewide Planning Goal 15 does not apply.

Goal 16 through 19 - Estuarine Resources, Coastal Shorelands, Beaches and Dunes, and Ocean Resources.

The amendments do not include any changes related to coastal, ocean, estuarine, or beach and dune resources. Therefore, these goals are not relevant and the amendments will not affect compliance with Statewide Planning Goals 16 through 19.

(2) *The amendment is consistent with applicable provisions of the Metro Plan and applicable adopted refinement plans.*

The amendments do not include any change in adopted land use designations or policy, nor does it change any requirements in the City's land use code concerning compliance with the Metro Plan and applicable refinement plans. There are no policies or other applicable provisions in the Metro Plan or adopted refinement plans that specifically serve as mandatory approval criteria in this instance or otherwise limit the expiration period for approved land use applications. Therefore, the amendments comply with the above criterion.

(3) *The amendment is consistent with EC 9.3020 Criteria for Establishment of an S Special Area Zone, in the case of establishment of a special area zone.*

The amendments do not establish a special area zone. Therefore, this criterion does not apply.
